COFFEE! COFFEE! S MANUFACTURED AT M. KELLY'S Southern Excelsior Coffee Mill, Raleigh, and is equal to the best coffee. It is made of coffee, rye and chickory, and is rossted in a cylinder by machinery, and therefore is better parched than can be done by hand. Chickory is not so well known in Dixie land, but in Europe they use it to give a superior flavor to the coffee. In Germany they call it agorah, and here we call it dandalion. In England it is so highly appreciated that they lay a duty of two pounds ten shillings sterling per hundred weight to protect the growers of it. We armex Professor Em-

Important to Volunteers, Ordinance to raise North Carolina is all frooms to serve under the Confederate Government during the War, passed the Convention on Monday last,

The State Journal in its reference to the Ordinance says :- "It evinces a most liberal the attempt to reach the city through spirit towards the gallant men who are fighting or willing to fight our battles. It provides for paying to all volunteers for the war a bounty of fifty dollars by the State, in addition to a similar amount proposed to be paid by the Confederate States. This bounty, too, is to be paid to those already enlisted for three years and to those twelve months volunteers who may re-enlist, deducting from the former fifteen dollars and from the latter ten-the amounts already

Now, it was exceedingly imprudent to the Enquirer to make any such statemen as the above at this time, even if it be true but if not clearly ascertained to be true lore it was made, what should be ught or said of its author? We do no pelieve it to be true. We believe that the North Carolina troops bore themselves as well in this conflict as the Virginia troops and we shall continue so to believe unti we have undoubted proof to the contrary.

The Enquirer has made not only a grave but a mortal charge against North Carolinians. Where are its proofs to sustain this charge? If we shall find—as we be lieve we will that the Enquirer, after claiming all the credit for Virginia troops. has libelled our brave soldiers, and if we shall have good reason to believe that the Enquirer is sustained in making this charge by the common government a Richmond, and by any considerable por tion of the people of Virginia, we shall ad vocate the withdrawal of our troops from the soil of the State, and the adoption of such measures as will protect our own State sgainst the enemy .- Raleigh Stan-

The Situation of Affairs in Savan-nah River,

From the Savannah News, 17th Instant Notwithstanding the heatile demons rations of the enemy, and the show o formidable preparations for an attack on this point, no material change in the attiude of affairs has taken place during the past few days. Some twenty vessels are still at anchor off Skidaway batteries. and about the same number of gunboats as formerly are to be seen in the vicinity of Wall's cut and Mud river. One or two of the fatter have advanced a little higher up or a little nearer to the main channel. Small boats prowl about in the river between Fort Jackson and Fort Pu laski, but keep at a respectful distance from the guns of either fort. Our telegraphic communication is effectually cut off from the latter fort, and water communication has to be maintained under the fire of their gunboats, and a floating or rate batter, which the enemy have established near Venus' Point, and which flectually commands the river

The liule steamer Ido went down to Fort Pulaski on Friday. As she was passing Ockley Island, she was fired on from the floating battery near Venns' Point. The Ida remained at the fort during Friday night and Saturday, It being d by the officers of the Fort imprudent for her to attempt to reach the city without an escort. On yesterday morning Capt. Cereopely determined to make Freeborn's cut. Accordingly, taking the South Channel, he passed between the fort and King's landing, in range of the guns of the enemy's vessels off Tybee They did not, however, fire on him; and pursuing his way through Freeborn's cut, he had reached the Wilmington Island Narrows when two shots were fired at him from a large gunboat in Mud river. whose shot fell short some two hundred feet. Passing into St. Augustine creek below Thunderbolt, the Ida reached her wharf in the city about 12 o'clock, unia-

On Saturday the Sauannah, Sampso and Resolute, gunboats of Commodore Tattnall's fleet, went down the river to moiter. When near Venus' Point the ederals opened fire on our boats from their masked battery and gunboats. The Savannah was struck once, but received no material injury. Our steamers re-turned the fire of the enemy, but with what effect is not known. It is believed hat an eighteen-inch solid shot from the Savannah struck the Federal batteries.

The Federals fired some sixty solid sho and shell at our steamers.

MECKLENBURG COUNTY-VIGILANCE COMMITTEES.-This model county of the State, besides having already sent a full proportion of fighting men to the war, and still adding to the number by the offer of more companies, has ever since the beginning of the war, had a most efficient instrument of public security in a well arranged organization of Committees of Vigilance and Sattey, appointed by the County court for every district in

These committees have recently been re-appointed, and, as we learn, are serving a most valuable end. We commend the example of old Mecklenburg to other counties in North Carolina, especially when we have so many reasons to believe that there are disaffected men in our midst. Few though they be, they are capable of doing much mischiel.—Raleigh State Journal.
